

# Welcome

## to the Longman Caribbean Catalogue

Dear Customers,

Another year has flown by and I trust you had a successful season.

The most obvious change to our catalogue is the great new design. I'm sure you'll find the new layout easier to use and the inclusion of a stock list should prove invaluable to you when placing orders. However, the real test of success lies with you. Please feel free to contact me if you have any ideas that will improve this important tool further.

I'm very pleased to announce new publishing for lower secondary. **Active Science** is a 3-level series written specifically for the various Caribbean curricula. The student books contain an interactive CD-ROM  (ActiveBook) with revision and follow up work and the teacher resource  (ActiveTeach) will give educators the opportunity to fully utilise technology in the classroom with video, animation and other resources. We complete **Interact with IT** with the release of the final two levels of the student and teacher resources.

Finally, new editions of the bestselling **Caribbean Story** (re-named **Caribbean History**) will publish this year and include a CD of visual archives to enhance the student experience and a change in the CSEC Human and Social Biology syllabus gives us the opportunity to develop an ActiveTeach CD-ROM for the subject, with our new edition of **Longman Human and Social Biology for CSEC**. All of our CSEC Science courses now have this dynamic teacher resource.

I hope I will have the privilege of meeting most of you this year, but as always, do contact me with any urgent queries or concerns.

With all good wishes,

**Sheena Daley**  
Caribbean Sales Manager
