Diploma

Introducing our own resources for the Diploma

Bring your students' learning to life with this engaging range of resources packed with essential information, real-life examples and motivating activities.

Level 1 Foundation Diploma in Information Technology

- A **Student Book** covers principal learning and contains activities for functional skills and personal, learning and thinking skills (PLTS) so learners develop these skills as they progress.
- A **Teacher Resource Disk** contains PDFs of the Student Book units so you have everything you need in one place, as well as delivery plans, functional skills and PLTS activities and model assignments to support delivery.

Author: Bernie Fishpool

Level 2 Higher Diploma in Information Technology

- A **Student Book** brings principal learning to life with lively snapshots of real work settings, and helps learners develop their PLTS and functional skills through integrated activities.
- An **Assessment and Delivery Resource with CD-ROM** provides ready-made teaching materials to facilitate planning, delivery and assessment, as well as a CD-ROM of customisable worksheets, activities, lesson plans and schemes of work.

Authors: Karen Anderson, Peter Blundell, Lynda Fitzmaurice, Richard McGill

NEW

Level 3 Advanced Diploma in Information Technology

- A **Teacher Resource Disk** contains the unit specification, delivery plans and activity sheets, providing opportunities to develop practical skills, PLTS, and functional skills.
- Assessment guidance gives you peace of mind about seeing learners through assessment, and real assignments offer important practice for assessment.

Authors: Susan Burn, Ann Byrne, Sue Hoyle, Philip Usher

BTEC ICT

Our own resources for both students and teachers bring BTEC ICT to life

BTEC in a Box is a valuable teaching resource for both BTEC Firsts for ICT Practitioners and BTEC Nationals for IT Practitioners.

Both boxes provide:

- **subject-specific teaching resources** – ensuring all the information enclosed is focused on your ICT Practitioners course
- **additional BTEC documentation** – saving you valuable time. It is all in one easy-to-use folder
- **delivery plans** – covering learning objectives, topic information, delivery methods, guidance, grading criteria, links to case studies and areas of the student books
- **whole assignment packages that you can edit** – allowing you to customise them to the needs of your students
- **extended case studies** – giving you the opportunity to personalise them and tailor them to the needs of your students.

You will also receive a FREE CD-ROM that contains the specification, electronic files of all the support material and all the BTEC guidance your centre requires.

BTEC in a box for BTEC Firsts for ICT Practitioners contains complete support for seven units. When complete BTEC in a box for BTEC Nationals for IT Practitioners covers 12 units and 3 newsletters.

Plus BTEC in a Box for BTEC Firsts for ICT Practitioners includes a FREE DVD which contains visual case studies of schools offering BTEC, and interviews with learners and teachers who have made the most out of their BTEC course.

NEW

Option Units* for BTEC in a Box for BTEC Nationals for IT Practitioners

The new Option Units give you even more choice and flexibility when teaching your BTEC Nationals for IT Practitioners by supplying you with 8 additional specialist units. Two units are supplied when you purchase, with the remaining six being supplied electronically.

Unit 5 Advanced Database Design

Unit 10 Client Side Customisation of Web Pages

Unit 11 Data Analysis and Design

Unit 16 Maintaining Computer Systems

Unit 17 Mathematics for IT Practitioners

Unit 19 Web Server Scripting

Unit 20 Event Driven Programming

Unit 25 Object Oriented Programming

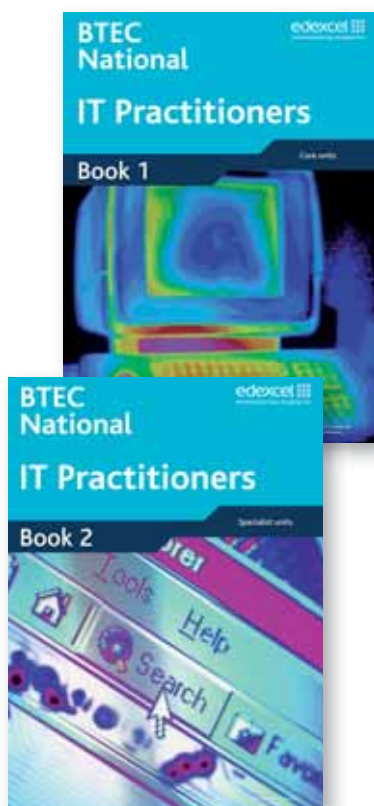

* Please note Option Units are referred to as specialist units in the specification.

BTEC Nationals Students' Books

Two Students' Books for the BTEC Nationals for IT Practitioners are available, written to match the 2007 specification. Book 1 contains sufficient units for the Award, while Book 2 contains some of the most popular Specialist Units providing sufficient units to teach to Award and Certificate level.

Each Student Book provides:

- **assessment support that will help your students achieve** with contextualised evidence activities that build your students' portfolio of achievement in small steps
- **real insight into the IT industry that will help your students on their way to becoming practitioners** with case studies from real companies, and interviews from industry practitioners to provoke your students' interest
- **a flexible two book structure that provides a cost-effective solution for your students** with everything they need to achieve the Award level for just £16.50. The Specialist Unit book is just £14.50.

Book 1 covers everything students need to achieve the Award level – Core and Specialist Units

| | |
|---------|---|
| Unit 1 | Communication and Employability Skills for IT |
| Unit 2 | Computer Systems |
| Unit 3 | Information Systems |
| Unit 15 | Organisational Systems Security |
| Unit 34 | e-commerce |
| Unit 35 | Impact of the Use of IT on Business Systems |

Book 2 covers some of the most popular Specialist Units

| | |
|---------|---|
| Unit 8 | Communication Technologies |
| Unit 11 | Data Analysis and Design |
| Unit 14 | Controlling Systems Using IT |
| Unit 18 | Principles of Software Design and Development |
| Unit 24 | Digital Graphics and Computers |
| Unit 26 | Computer Animation |

Free Study Guides are available to all students registered on the BTEC First for ICT Practitioner and BTEC National for IT Practitioner courses

BTEC Activator for BTEC Firsts for ICT Practitioners

This resource provides BTEC First for ICT Practitioners students with enterprise-based projects to complete while on work experience.

The BTEC Activator includes:

- ready-made assignments to help students achieve unit outcomes
- exercises that prepare students for work experience
- interactive activities that occupy students while on placement
- materials that can be expanded to provide a personal planner.

Save up to 50% on BTEC resources!
See the order form on the inside back page for details.

GCE ICT

Edexcel GCE in Applied ICT

Edexcel's GCE in Applied ICT resources give you complete confidence in teaching the AS and A Level Single Awards (User awards). Written by chief examiners and experienced teachers, the materials are based exactly on the content of the specification and exams.

Confidence with teaching this exciting qualification

Published by Edexcel, these resources guide students through the whole of the ICT end-user Single Award specification using real-life examples.

Assessment and exam support

- Each section provides practical guidance for tackling course work units.
- Helps students to build eportfolios with confidence.
- Key advice on tackling the examination and full practice assessments are provided, both written by a chief examiner.

FREE ActiveBook CD-ROM with each Students' Book!

The ActiveBook is an easy-to-use digital version of the Students' Book. It is as easy-to-use as the Student Book and an excellent tool for sharing the Student's Book on an interactive whiteboard.

Pages are directly linked to additional resources. It seamlessly integrates ICT, supporting students through step-by-step digital demonstrations and source files, saving you time.

The ActiveBook is available both on the CD-ROM within the Students' Book and as a networkable site licence for whole-class use.

Definition boxes help understanding of new concepts

Saves teachers time by providing virtually all the digital resources they need through the ActiveBook

Links to relevant files on the CD-ROM including source files and weblinks for assignments and videos that provide real-world contexts

Practical tasks aid understanding and help prepare for assessment

Digital tutorials support student understanding of skills and processes

Regularly updated weblinks give direct access to real examples

Sample pages from the FREE ActiveBook CD-ROM

How to order

To order your copies of any of the resources above please see the order form on the back page.

Easy Starter Packs - Save up to £500!*

Purchase an Easy Starter Pack containing 60 copies of your chosen students' book plus an ActiveTeach and you can save over £500! It's a great opportunity to get the teacher and student resources you need plus make great savings.

* Saving based on 60 students' books at £16.99 plus one ActiveTeach at £625. Total cost £1644.40. Special offer price £1100.

DiDA

The ActiveBook pack consists of a Students' Book plus ActiveBook CD-ROM.

The ActiveBook is a digital version of the Students' Book. It is as easy to use as the Students' Book and an excellent tool for sharing the pupil book on an interactive whiteboard.

Pages are directly linked to additional resources. It seamlessly integrates ICT, supporting students through step-by-step digital demonstrations and source files, saving you time.

The ActiveBook is available both on the CD-ROM within the Students' Book and as a networkable site licence for whole-class use.

The Students' Books and ActiveBook work together. The Students' Book is a useful reference tool which students can refer back to whilst working on tasks at the computer.

Using ICT

The Using ICT resource is suitable for Students aiming for Levels 1 and 2 and gives them a solid foundation for their DiDA studies.

Multimedia

Develop students' multimedia skills with this interactive resource for Unit 2. Suitable whatever your choice of software.

Graphics

This resource equips students with the skills they need to design and create effective graphic products both on paper and on-screen.

ICT in Enterprise

Introduce your students to the work of enterprise, help them to develop their team working skills learn how to construct a convincing enterprise proposal.

Applications for DiDA

These step-by-step guides will help students master Dreamweaver and Flash for DiDA.

Evaluation packs

Evaluation packs provide you with the essential elements you need to assess the resources above and also save you money! Each pack contains a copy of the Students' Book with **FREE** ActiveBook CD-ROM and a quick start guide to ActiveTeach.

DiDA

Transform teaching and learning with ActiveTeach

At the heart of DiDA is ActiveTeach – a unique resource that provides all you need to make your DiDA lessons seamless and successful!

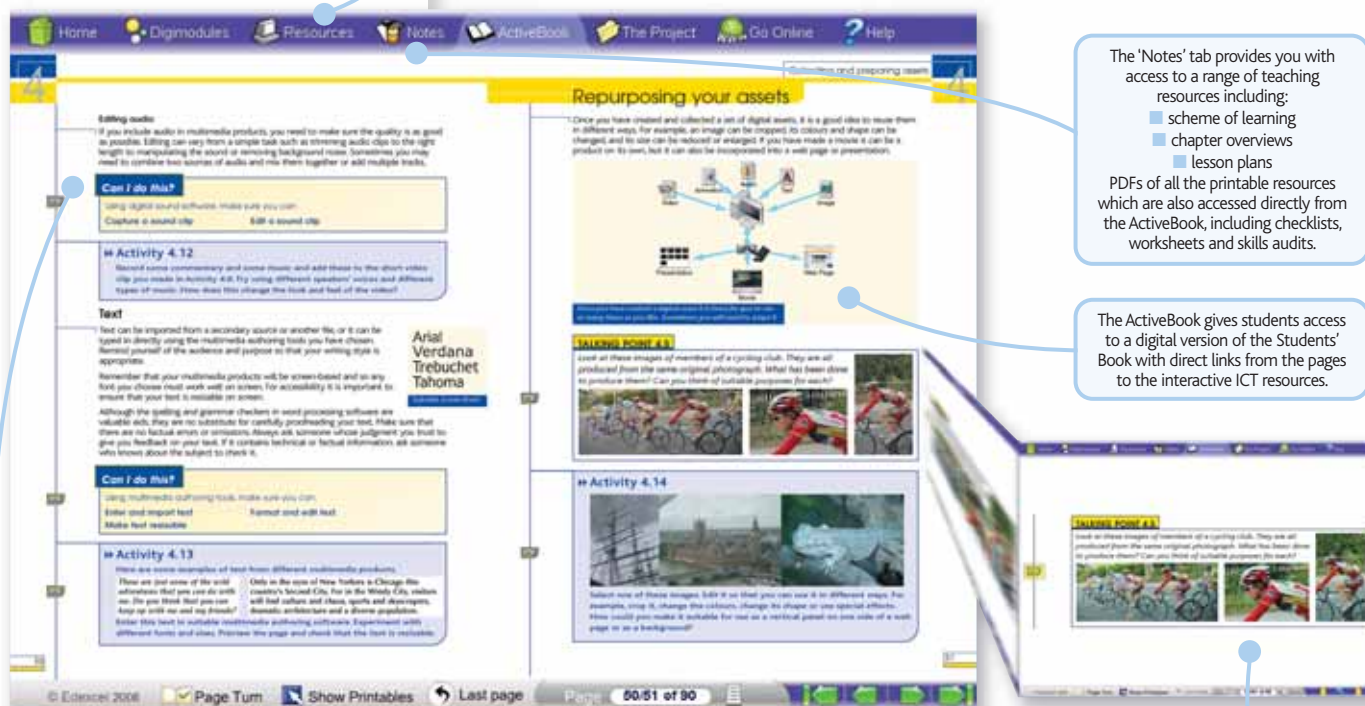

Includes site licences of:

- the ActiveBook with linked multimedia resources
- video clips which set the scene for each Unit and stimulate class discussion
- scheme of learning with lesson plans and worksheets
- direct access to the DiDA website.

Access to further digital assets is provided via a 'Resources' tab. In Using ICT, these include:

- questionnaires and surveys
- posters ■ flyers ■ websites

With ActiveTeach you spend less time planning. It brings together all the interactive media you need, instantly accessible from one place. This truly blended resource enhances the way you deliver your lessons by letting you navigate seamlessly from one activity to the next.

The 'Notes' tab provides you with access to a range of teaching resources including:

- scheme of learning
- chapter overviews
- lesson plans

PDFs of all the printable resources which are also accessed directly from the ActiveBook, including checklists, worksheets and skills audits.

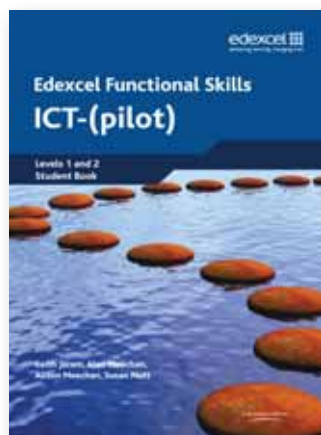

The ActiveBook gives students access to a digital version of the Students' Book with direct links from the pages to the interactive ICT resources.

The zoom facility helps focus students' attention

Digimodules provide real-life videos for whole class teaching and can be accessed directly from the ActiveBook page or from the menu pages.

Can I do this? boxes provide students with the opportunity to develop or revisit specific ICT skills. For each skill, there is the option for students to be given the information or be tested on the information. Both options provide a recorded tutorial.

Functional Skills Pilot

Developed by a team of experts including a senior examiner: Keith Jeram, Alan Meechan, Alison Meechan, Susan Nutt

Get FREE comprehensive teaching and learning resources – available for centres on the Edexcel Functional Skills Pilot and Development Programme.

The pilot resources develop the skills your learners need to succeed in Level 1 and Level 2 Functional ICT. The resources include Learner Materials, digital assets and a Teacher's Notes.

- Learner materials focus clearly on each of the Functional ICT Standards, so your learners develop the essential skills required.
- Digital assets provide skills demonstrations and files which include photographs, text files and spreadsheets, designed for use with the learner materials.
- Practice tests ensure your learners can identify strengths and where they need to improve.
- Teacher materials provide mapping charts, unit-by-unit guidance and model answers to the tests so you are fully supported.

If you would like to comment on these resources and input to the development of our publishing for Functional ICT 2010, please email fsdevelopment@edexcel.com.

Would you like to join the pilot?

To join the Edexcel Functional Skills Pilot, find details at: www.edexcel.com/fs

Would you like to join the development programme?

FREE Software Support

We have a dedicated service to support any queries you may have for our software products. Please email digital.support@pearson.com, including your contact details, or call us on 01865 888 038, Monday to Friday 9am-5pm.

Special offers

You can benefit from our standard discounts by ordering with the enclosed order form, or quoting **EDS09-011** on your purchase order.

To find out about other special offers, contact your local Sales Consultant.

Our Delivery Pledge

We are dedicated to providing you with a fast and efficient service. On receipt of your order, your books will be delivered to you within five working days (subject to stock availability). You can also telephone to request a delivery date that is convenient to you (excluding weekends). Delivery is **FREE** on all approval items to UK schools and colleges. A £3.50 post and package charge will be added to firm orders in the UK. A charge will be applied based on weight to all international orders.

Translation Rights: Foreign publishers wishing to apply for translation rights for titles included in this catalogue should contact: Subsidiary Rights Department, Pearson Education, Edinburgh Gate, Harlow, Essex, CM20 2JF, England.

Pearson Education Limited. Registered Office: Edinburgh Gate, Harlow, Essex, CM20 2JF. Registered Number 872828. Registered in England and Wales.

Edexcel is a Pearson company. Pearson Education distributes resources produced by Edexcel. Edexcel endorses a wide range of resources that support its qualifications. Unendorsed resources may also be suitable preparation materials for Edexcel qualifications.

FREE for you to try for up to 60 days!

To help you make the right choice for your school or college, we provide completely free evaluation services on selected products listed on the order form below:

Approval Service

Items will be invoiced upon despatch, from which point you will be entitled to up to 60 days from this time to evaluate the product. Once the approval period has expired you will be required to pay for the item(s) in full or arrange for them to be collected from you free of charge.

Try Before you Buy

We also offer a Try Before you Buy service on specified products. This enables you to use a half class set of materials in your classroom for a period of time agreed with your local Sales Consultant. Contact your local Sales Consultant to find out more.

Should you require a longer period to evaluate the products you have ordered or in the unlikely event that the products you have evaluated do not meet your requirements, please call **FREE** on 0800 579 579 to arrange an extension period or to return to us in a saleable condition.

Looking for advice on how our products meet your needs?

We offer you a personal and professional service from each of our highly trained Sales Consultants. Their specialist knowledge of our products means they can offer advice on meeting your resourcing needs within your available budget.

Arranging an appointment (UK schools & colleges)

Arrange an appointment with your local Sales Consultant by ticking the box on the order form below, calling **FREE** on **0800 023 2923**, or emailing secondaryappointment@pearson.com.

International schools and colleges

To contact your local representative from our International Team, visit www.longman.co.uk/international and go to the 'Contact Us' page. For orders and enquiries for any of our International titles or for a multi-currency price list, please call our International Customer Services department on +44 870 6073 777, or fax +44 870 8500 155.
