

# Easiteach® Maths Problem Solving

Are you looking for software that provides more than drill and practice for your pupils? **Easiteach® Maths Problem Solving** gives you a set of whole-class resources to engage your pupils in rich open-ended investigations and problem solving activities. Written by Maths consultant, Lynne McClure, in collaboration with maths problem-solving experts NRICH, this software is designed to help you to implement a more creative approach to teaching maths as recommended by the *Curriculum for Excellence*.

## Easiteach® Maths Problem Solving:

- gives you a bank of ready-made, rich activities for your interactive whiteboard or data projector
- provides engaging contexts to encourage pupils to use and apply what they know to solve problems
- provides excellent opportunities for talking and listening
- is referenced to the *Curriculum for Excellence* numeracy outcomes.
- comes with FREE Easiteach Reader Software.

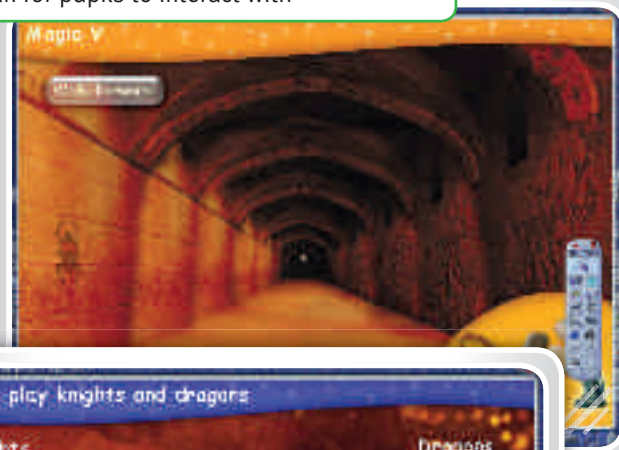

Clear advice for classroom management

Teaching Notes guide you through the investigation, screen by screen

Engaging screens that are easy to demonstrate and fun for pupils to interact with
