

<b>Introduction</b>	v
<b>Section A:</b> Organisms and Life Processes	1
<i>Chapter 1:</i> Life processes	1
<i>Chapter 2:</i> The variety of living organisms	5
<b>Section B:</b> Animal Physiology	10
<i>Chapter 3:</i> Breathing and gas exchange	10
<i>Chapter 4:</i> Food and digestion	14
<i>Chapter 5:</i> Blood and circulation	19
<i>Chapter 6:</i> Coordination	24
<i>Chapter 7:</i> Chemical coordination	29
<i>Chapter 8:</i> Homeostasis and excretion	32
<i>Chapter 9:</i> Reproduction in humans	35
<b>Section C:</b> Plant Physiology	40
<i>Chapter 10:</i> Plants and food	40
<i>Chapter 11:</i> Transport in plants	44
<i>Chapter 12:</i> Chemical coordination in plants	48
<i>Chapter 13:</i> Reproduction in plants	50
<b>Section D:</b> Ecology and Environments	56
<i>Chapter 14:</i> Ecosystems	56
<i>Chapter 15:</i> Human influences on the environment	61
<b>Section E:</b> Variation and Selection	67
<i>Chapter 16:</i> Chromosomes, genes and DNA	67
<i>Chapter 17:</i> Cell division	69
<i>Chapter 18:</i> Genes and inheritance	73
<i>Chapter 19:</i> Natural selection and evolution	77
<i>Chapter 20:</i> Selective breeding	81
<b>Section F:</b> Microorganisms and Genetic Engineering	85
<i>Chapter 21:</i> Using microorganisms	85
<i>Chapter 22:</i> Genetic modification	89
<b>Appendices</b>	94
<i>Preparing for Exams</i>	94
<i>Glossary</i>	97
<i>Index</i>	100
