

Threes

Frog starts at 0 and hops along the bank in 3s. Write a multiplication to show where he will be after:

1. $4 \times 3 = 12$

1. 4 jumps

2. 6 jumps

3. 3 jumps

4. 10 jumps

5. 8 jumps

6. 5 jumps

7. 9 jumps

8. 2 jumps

9. 7 jumps

How many jumps does Frog need to reach:

10. $9 \div 3 = 3$

10. 9

11. 15

12. 27

13. 6

14. 30

15. 21

16. 12

17. 24

18. 18

Frog starts at 0 and does one hop every minute. What number does he reach in an hour?
