

Power Maths: White Rose Maths Edition Progress Tests

Save teachers time, build confidence with assessment data and plan your next teaching steps!

- New half-termly and end-of-year summative assessment **designed specifically for the new Power Maths: White Rose Maths edition** with detailed diagnostic mark schemes.
- **Reliably** assess what children have been taught, **track children's results against age-related expectations** and **identify misconceptions, strengths and weaknesses** for individuals and classes so that teaching can be adjusted/follow-up planned.
- **Written and updated by expert assessment authors**, with **questions now tried-and-tested** in the classroom.
- The new edition questions have been **improved using the wealth of data we have from the first edition**.
- **Mapped to our innovative 6-step reporting scale** to help you with more granular progress tracking. The 6-step scale is underpinned by performance data from the first edition so you can be confident about your progress judgements.
- Schools can **compare their pupils' results** with average tests scores from all schools using the **Online Markbook**, to provide a benchmark for their data.
- **Mark Schemes** include correct answers, likely incorrect answers, strategies to address misconceptions and evidence of greater depth.
- **Digital only**. Hard copies can be self-printed from ActiveLearn Primary. The **one-off price offers a lifetime subscription** to the digital tests.
